Turning data into **ACTION**

Our Accelerate™ Dashboard program provides you with the data you need to make informed decisions that drive overall equipment effectiveness (OEE), improve production, and decrease downtime.

🔒 **SECURE ACCESS TO LIVE DASHBOARDS**

🖱 **USE ON ANY DEVICE WITH INTERNET ACCESS**

📊 **REAL-TIME MACHINE PERFORMANCE DATA**

👥 **BACKED BY A TEAM OF MACHINE EXPERTS**

BW Converting Solutions is a strategic alliance of resources and services that brings together five Barry-Wehmiller companies — Paper Converting Machine Company (PCMC), Winkler + Dünnebier (W+D), STAX Technologies, Hudson-Sharp, and Northern Engraving and Machine. These industry leaders offer trusted brands and innovative technologies in the design, manufacture, and service of high-performance converting and packaging machinery for the tissue, nonwovens, hygiene, bag-converting, mailing, and printing industries.

By coming together as one global team, our combined engineering, operations, supply chain, and sales teams work together to better serve customer needs. Together, we provide one global parts network, one service support network, a broad base of engineering experience and talent, regional sales support, and a superior level of service. For more information, visit **bwconvertingsolutions.com**.

ACCELERATE™ DASHBOARDS

Drive improvements in OEE and production with real-time machine performance data

Real-time access to machine performance

- Secure access to live dashboards through any device with an internet connection
- Cloud-based data
- Easy-to-understand visuals of machine speeds, OEE, downtime, and more
- Visibility to historical data
- New awareness of OEE trends
- Easy access to machine documentation
- Three levels of service to choose from
- Available for new and legacy equipment

ACCELERATE DASHBOARD PACKAGES

	Visualize	Optimize	Maximize
Productivity Snapshot - A look at overall equipment effectiveness (OEE) including speed gauges, downtime, and quick links to equipment documentation. Watch live production happen in real time.	✔	✔	✔
Downtime Analytics - A deeper dive into what's causing downtime. See top faults by frequency, downtime percentage, and more. Discover areas to focus on to improve uptime.		✔	✔
Production Trends - Production trend data to help keep you on target. See production and waste totals by day, shift, and preset job specs (recipes). Filter by weeks, days, months, and custom timeframes.		✔	✔
Job Optimizations - Compare historical job settings. Track when settings are changed. Determine optimal settings based on previous job performance. View a variety of metrics regarding recipes.		✔	✔
Automated Alerts & Reports - Production and fault reporting emailed to you. Set thresholds and alerts on custom data conditions that interest you. Get ahead of situations that drop productivity or cause downtime.		✔	✔
Preemptive Actions - Accelerate machine experts initiate preemptive actions with your team to optimize machine settings, performance, and maintenance tasks via a two-way, interactive case communication tool. Maintain full visibility to past actions and resolutions at your fingertips.			✔
Expert Data Support - Accelerate machine experts initiate calls with your team on a set schedule for customized analysis and action-oriented recommendations that suit your operational cadence. Learn to maximize the use of **Accelerate** together.			✔
Data Storage	Recent data history	6 months	1 year

EXPERT SERVICE

Our Accelerate team is made up of machine experts with more than 80 years of combined experience and technical knowledge providing you with action-oriented recommendations and customized analysis to keep you running at peak performance.
