Ahlbrandt launches the modular Ozone Converter Catalytic Air Purifier *Durable design is both highly efficient and environmentally friendly*

Ahlbrandt's new Ozone Converter Catalytic Air Purifier is available now.

ST. LOUIS — Jan. 13, 2021 — Baldwin Technology's [Ahlbrandt](#)—a leader in providing corona, rotor spray and drying technology for industries including food packaging, textiles and more—has launched the highly efficient Ozone Converter Catalytic Air Purifier (CAP), which cleans exhaust air from corona surface treatment systems. With a catalyst bed of metal oxides, the CAP ensures an ozone-free, environmentally friendly production facility.

Featuring a compact, durable design, the CAP also is modular for easy maintenance and expansion, if needed. As requirements and production conditions change, the catalyst volume is adapted to the exhaust volume of the installed corona surface treatment system. Additionally, the catalyst filter is designed without active carbon, making it non-flammable and very safe, especially when running in high temperatures.

"The new Ozone Converter CAP for corona surface treatment systems is designed to be both very efficient and environmentally conscious, supporting human health and safety," said Holger Bätz, Production Manager for Ahlbrandt. "These are important values, reflected in all of Ahlbrandt's technologies and throughout our organization."

ABOUT BALDWIN TECHNOLOGY COMPANY INC.

Baldwin Technology Company Inc. is a leading global manufacturer and supplier of innovative process-automation equipment, parts, service and consumables for the printing, packaging, textile, plastic film extrusion and corrugated industries. As a total solutions provider, Baldwin offers our customers a broad range of market-leading technologies, with a focus on improving the economic and environmental efficiency of production processes. Through a global footprint of 21 company-owned locations and an extensive network of partners, our customers are supported globally, regionally and locally by dedicated sales and service team members who add value by forming long-term relationships. Baldwin is privately owned by BW Forsyth Partners, a Barry-Wehmiller company. For more, visit baldwintech.com.

ABOUT BW FORSYTH PARTNERS

BW Forsyth Partners is the investment arm of multibillion-dollar global manufacturing and engineering consulting firm [Barry-Wehmiller](#). Established in 2009, BW Forsyth Partners blends Barry-Wehmiller's unparalleled legacy of value creation and people-centric culture development with keen investing experience to help companies realize their true potential. With a focus limited to areas known well, BW Forsyth Partners seeks to partner with leadership teams to acquire small- to middle-market companies in the capital and component equipment, and professional services sectors. In each of our operating companies, BW Forsyth Partners deploys operational improvements and strategy development without compromising the autonomy, strategic vision and entrepreneurial spirit of their leadership teams.
